

# Would you like priority access to over 9000 accessible UK toilets?

The answer is a Radar key  
With your own Radar key you can unlock  
most disabled toilets in the UK

# The National Key Scheme – opening doors to independent living

If you have a health condition or disability (particularly if you're a wheelchair-user) finding an accessible toilet that's clean, tidy and available for you to use can be a challenge. And they're often kept locked.

Under Radar's scheme, special locks are installed on public disabled toilet doors to give disabled people priority access. Local authorities have adopted the scheme and 'Radar toilets' can now be found in shopping centres, pubs, stores, bus/train stations and other locations nationwide.

## How it works

The Radar key gives you independent access to locked public toilets around the country. The provider of the toilet has a key – but with your own key there's no need to wait for a member of staff to unlock the door. You're in control.

## Help Disability Rights UK continue its work

Radar is now part of Disability Rights UK who administer and manage the National Key Scheme. We rely on key sales and donations to enable us to maintain the scheme and keep our database up to date.

Order your key – and regional listings of Radar toilets from us by post using the attached form or order from our online shop.

### Don't risk a cheap copy!

Radar locks have very tight tolerances which need accurate keys. A copy may work sometimes or not at all. Is it worth saving a couple of pounds if you can't spend a penny?

### Independent living in practice

Disability Rights UK works to create a society where everyone with lived experience of disability or health conditions can participate equally as full citizens. To find out more visit: [www.disabilityrightsuk.org](http://www.disabilityrightsuk.org)
